

- Library Admin
 - Suggested Purchases
 - See BiblioSuggest Training
 - Reports
 - The reports page allows you to pull data for Community Created Content, Community Credit, and Suggested Purchases from a specified date range.
 - Awards/Bestseller Visibility
 - This toggles what is visible on the Awards and Bestsellers pages. The listings auto-populate. If the library does not own the item on the list, there is a button for the patron to suggest it for purchase.
 - All Staff Lists
 - Self-explanatory. Shows all staff lists created to this point.
 - Very helpful if you're in need of ideas for what lists to make next!
- If you need a new account for a new staff member, or would like to explore more about what you can do as a BiblioCore Admin, reach out to Amber.
